

CMC³ Wine & Cheese Pairing

BY FOURSIGHT WINES, ANDERSON VALLEY

Cheese and wine have a natural affinity for each other, and it's not difficult to add a few simple ingredients to make them even better together.

We are pleased to offer a special wine sampler to the attendees of this year's CMC3 virtual conference. We are equally happy to donate \$5 from each box back to the organization, to help continue its scholarship efforts.

1

Purchase the Wines

One bottle of our Sauvignon Blanc and one bottle of estate-grown Pinot Noir are included.

Retail Price: \$76
CMC3 Price: \$60 with shipping included

2

Buy A Few Ingredients

One cheese can be adapted to pair with either wine in this sampler! Buy a few simple items and you're ready to pair! See the recipes for details.

3

Enjoy Together!

One thing is true: 2020 calls for wine! We all need a moment to relax and enjoy the small pleasures.

Cheers!

About Foursight Wines

Foursight means four generations, looking to the future. We are a family business, focused solely on producing highly acclaimed, estate-grown wines from our Anderson Valley vineyard. Our philosophy is old-world -- we craft our wines with minimal intervention, using traditional techniques like wild yeast fermentation.
